

# PINK IDEAS

A MONTHLY COLLECTION OF  
NEWS & IDEAS FROM PINK INC.

## GREETINGS FROM PINK INC

The last few months Pink Inc. RENTAL Fabric Solutions are being seen all over the country! Take a look at some of the cool events we are involved in.

From stage sets, ceiling treatments and entryways to full stretch fabric environments, our décor is really getting around and shaping your experiences.

And just think – If our fabric structures could talk – the things they would say!

## PINK INC. PROJECT SPOTLIGHT MY TRIP DOWN THE PINK CARPET

Well, not MY trip but Leslie Jordan's autobiographical solo show, My Trip Down the Pink Carpet opened at the Midtown Theater, NYC.

Pink Inc.'s Arches in Cotton Candy PINK were there to greet the guests!

And see what the NY Times had to say about the show!

## PINK INC. PROJECT SPOTLIGHT IR MAGAZINE AWARDS

Cipriani Wall Street was the spot for this year's IR Magazine US Awards 2010. Pink Inc.'s Crescent Stage with cool framed projection screen surrounds created a fantastic stage set for the investor relations excellence awards! Thank you to our client BAH Productions and for all the on-site support from the Star Group!

## PINK INC. PROJECT SPOTLIGHT SXSW

For the 2nd year running, Pink Inc. products went to Austin for the South by Southwest conference for The Pepsi Podcast Playground. Our client, Larry Abel designs used ModPods for private "share" areas.

This year it was exciting for me to realize SxSW had expanded its music festival roots to include an exclusive time for Digital Media. This IS one of those places where the Digital Royalty meet! And I hope I get to attend next year!

## PINK INC. PROJECT SPOTLIGHT ANGEL ORENSANZ CENTER

Celebrating 160 years as the 3rd oldest synagogue in America, The Angel Orensanz Center remodeled and their opening party included - guess who? Well Pink Inc. of course – Our Turning Birds graced the ceiling and Slope walls created a cozy seating spot.

## PINK INC. PROJECT SPOTLIGHT EARTH DAY

Earth Day is 40!

And to celebrate, Vanderbilt Hall transformed into an earth friendly environment for visitors. Pink Inc.'s products acted as backdrops to beautify and demonstrate that rental fabric structures are sustainable products!

## A WORD WITH DEBRA

Last but certainly NOT least – I wanted to direct you to our website where you can take a look at our NEW WORK section. We have added this ongoing spot for you to view our newest products. And on our blog entitled Pink Inc News you can certainly read about our Newest News! And if that wasn't enough – We have also released a CD of our 2D and 3D CAD models and archive – so DESIGNERS, we can send you our shapes to drag and drop into your drawings!

Enjoy the warmer weather!

-Debra
