

Pink Inc.'s Continental Divide is a 27'-long curved wall whose height fluctuates from 4' to 9'. Seen here as a room divider, the Continental Divide structures are creative and versatile design choices for events.

A Continental Divide, when used in conjunction with other items from the Wave Wall series, created a stunning stage set that wowed the crowd! Lighting and projection adds to the overall effect, making your event one to remember.

Part of Pink Inc.'s Wave Wall series, the Continental Divide and its varied heights make for clever entryways and exits, as well great projection and lighting surfaces.

This stage set consists of several walls from the Wave Wall Collection. The Continental Divide—at 27'—is the longest Pink Inc. fabric structure. These portable, temporary walls are easy to assemble and can be moved quickly to achieve the perfect set-up
