

Replacing outdated streamers with Pink Inc DNA and utilizing Pink Inc Icicles, the Blender Theater in Manhattan knows how to “Party Like a Rock Star” for this annual event.

A perfect example of a wall that doesn't completely close off your space, the DNA has a unique mixture of being both solid and see-through. Choose the colors that work best for you, and the DNA will make your function a memorable one.

As a part of our Garden Line, these green DNA are beautiful complex shapes that are amazingly simple to set up. Popping up in minutes, you'll be amazed how quickly your garden grows!

Made of either colored or white fabric, the DNA add a whimsical touch to your tradeshow booth or event.
