

Pink Inc.'s FlexiTunnel is stretch fabric and PVC armature, which offers flexibility and venue versatility. Getting the base plate weights locally rather than shipping these heavy materials saves tons in shipping costs, making this a real cost-effective design solution.

The FlexiTunnel's single skin of spandex makes it an excellent projection surface to create a full immersive environment! Impress your guests as they enter your event with projected lights, slides, printed messages, gobos, videos or live performances.

Tension fabric has unlimited design possibilities and is a capabilities, lightweight, cost-effective and environmentally friendly solution for the experience design, exhibit, interiors and retail markets.

25' long and about 10' tall, the soft form of the FlexiTunnel makes an immediate on your event guests. At the Grand Opening of the Constitution Center in Philadelphia, PA, Pink Inc. tunnels lead the way, directing traffic and adding to the experience of the event.
