

The Great Circle Event! Lighting designers love Pink Inc.'s Full Moons and Circle Surround backdrop. This special event featured floating fabric structures of various sizes as a canvas for light.

Full Moon circular fabric structures are suspended vertically for this stage set design. Available in many sizes, the giant circles are readily available through Pink Inc.'s Streamline Rental Program. Tension fabric folds small for ease of shipping, storage, and setup, making it a very cost-effective solution.

At the Sports Museum of America, the Full Moon installation is a permanent install. At night passersby can see the light projected on the circular discs, detailing baseballs, soccer balls, etc. The museum also owns Wave Walls, which are used to divide and change up event spaces.

Combinations of Full Moon dot the ceiling to add an unusual effect at a Crunch fitness center. The designer further complimented the space with bursts of color, pattern and light to create an exciting and delightful entryway.
