

It's a perfect stage set for a meeting, with one Wave Wall Large and two Small Slope Walls highlighting the speaker. Simple to ship, install and dismantle, these fabric walls are readily available as part of the Streamline Rental Program.

Pink Inc.'s Small Slope is featured here in white fabric bathed in light as part of a stage set design on the Waldorf Astoria stage. Easy to install and move onsite, this wall is complemented by other fabric structures from the Wave Wall Collection.

Branded fabric structures are eye-catching solutions for your consumer events and trade show booths. Dye-sub fabric printing is a long-lasting, high-quality photo-real printing process. Here, Pepperidge Farms used high quality originals which yielded crisp, clear results on the fabric.

The Small Slope shown here is sharing the stage with assorted walls from the Wave Wall collection. Grouping various fabric structures creates a lyrical landscape to project light and focus the action. Miss Florida USA was selected from this very stage.
