- Site Plan/Event Layout
- Two Person Team
- Gloves
- Sewing Kit
- Plastic Drop Cloth

Additional Support Please Call:  
212-253-6666 or  
After Hours: 646-853-3900

Metals are labeled for easy assembly. Simply match the corresponding parts, depress the button, and slide together.

1. Join pieces to create section. First, combine the curved pieces.

Prior to assembly, lay out drop cloth in designated work location. Before working with fabric, wash hands or put on gloves.

2. It is easiest to assemble with the wall lying on its side. Join sections, beginning with the curves and then attaching the straight supports.

3. Using an allen key, attach the central supports to the frame. Leave the frame lying down until the end.

4. Locate the fabric and spread it out between both people. Have each person hold a bottom corner with one hand inside the fabric.

5. Continue holding each corner. Transfer the fabric from one arm to the other so it becomes inside-out.

6. Have each person grasp the bottom corner of the metal with the hand still inside the fabric. Continue holding the corner as you begin stretching the fabric over the metal.

7. Have both people slide the fabric up onto the bottom of the metal and align corners. Remember the zipper runs along the side.

8. Continue sliding the fabric over the metal.

9. Have one person pull the fabric over the metal while the other one zips. The fabric is strong, so we encourage pulling hard!

10. Stand and place in desired location using both people. Please try not to drag the pieces. Make sure all corners and seams are straight. You can flip the Ripple Wall over to have it curve in the opposite direction.

#### Trouble Shooting:

- If the metals don't seem to be fitting together:
  - \* Keep metals as straight as possible and slide together. Forcing and twisting will only damage the metals.

Final Notes:

Metals:

After use, dismantle. Each metal is labeled, so please place back in corresponding labeled bag. If possible, zip-tie pieces together.

Under NO circumstances should the metals be taped to one another.

Fabric

Each fabric is labeled on the Pink Inc. tag and should be placed back in the corresponding labeled bag.
