Metals are labeled for easy assembly. Simply match the corresponding parts, depress the button, and slide together.

1. Locate the top and bottom pieces.

Prior to assembly, lay out drop cloth in designated work location. Before working with fabric, wash hands or put on gloves.

2. Attach the four 4' pieces to one of the pieces from step 1.

Be sure to match the labels. This is very important.

3. Place the remaining square from step 1 onto the four side supports.

These will only slide together properly if all four pieces indicated are aligned prior to sliding into place.

4. Locate the fabric. The zipper on the fabric will run along three of the short sides at one end of the Quadrigon.

The piece is reversible and symmetric so it does not matter which side the zipper sits on. Zipper shown in red.

5. It is easiest to set the fabric onto the metals. Place the metals onto the drop cloth.

6. Slide the fabric onto the metal.

7. Have one person pull the fabric over the metal while the other one zips. The fabric is strong, so we encourage pulling hard!

8. Flip again so the zipper side is down. The Quadrigon is complete.

Final Note:

Metals:

After use, dismantle. Each metal is labeled; place back in the corresponding labeled bag. If possible, zip-tie pieces together.

Under NO circumstances should the metals be taped to one another.

Fabric:

Each fabric is labeled on the Pink Inc. tag and should be placed back in the corresponding labeled bag.
